B.F.A. DEGREE PROGRAM APPLICATION PROCEDURES

The B.F.A. (Bachelor of Fine Arts) degree is considered a professional art degree. The BFA program in studio art is for the serious art student who considers making the professional practice of fine art or graphic design their career.

A student must be a matriculating B.A. or B.S. art major at Southern Illinois University Edwardsville prior to applying for the BFA program.

Application for admission to the B.F.A. degree program most often occurs during the junior year and typically after at least a year in residence at Southern Illinois University Edwardsville. To be accepted into the program, and to remain in the program, a student must maintain a cumulative grade point average of 2.5 (on a 4.0 system) and 3.0 in studio work. Students must take a minimum of two semesters in B.F.A. program before graduating.

Admission to the program is by portfolio review according to the procedures outlined below. All applicants for the B.F.A. degree program must submit a portfolio of work to be presented to a committee of the entire studio faculty. Applicants should specify their intended area of studio specialization. A faculty member from the student's major area must agree to serve as the students' mentor.

APPLICATION DEADLINES

FALL	November 1 by NOON
SPRING	April 1 by NOON

Applications will be reviewed as soon as possible following the deadline. Applicants will be notified, in writing, of their acceptance or rejection to the B.F.A. program.

NOTE: Review of credentials will not be undertaken unless ALL of the application materials have been received.

The Department highly recommends you work closely with your CAS Art Advisor regarding specific General Education and Graduation requirements.

The BFA thesis exhibition can occur after two semesters once accepted into the program. An on-campus exhibition is required in fulfillment of the ART 499 requirement. Any off-campus exhibition should not be scheduled during the on-campus exhibition.

BFA campus exhibitions are held twice a year. Exhibitions are scheduled towards the end of the fall or spring semester. Campus exhibitions are group shows. The amount of work displayed by each student will depend on the number of students exhibiting in that group, the amount of space available, and the scale of the work. BFA Exhibitions reflect the accomplishments of the students in the BFA program, Final decisions regarding logistics (show dates, install, etc) of B.F.A. exhibitions rest with the BFA coordinator and Department of Art & Design.
