

Dr. Stanislaus Solomon

Associate Professor of Supply Chain Management
SIUE School of Business
Management and Marketing Department

Dr. Stanislaus Solomon, Associate Professor of Supply Chain Management at Southern Illinois University Edwardsville (SIUE), serves as faculty for SIUE's Healthcare Supply Chain Executive Education program and brings a strong blend of academic rigor and industry experience across operations, quality, and supply chain management. He teaches Operations Management, Logistics & Supply Chain Management, Business Analytics, and Healthcare Supply Chain, and helps coordinate the School of Business's Supply Chain Management specialization. His research focuses on solving complex operational and logistics challenges and has been published in leading journals; an invention disclosure with Hewlett Packard Labs underscores his innovation-oriented approach. Beyond academia, Dr. Solomon delivers workshops, consulting, and applied projects with organizations such as Scott Air Force Base, World Wide Technology, and Monsanto, translating research into measurable improvements. He earned his Ph.D. in Business Administration from the University of Missouri–St. Louis, an M.S. in Electrical Engineering from California State University, Sacramento, and a B.S. in Electronics & Communication Engineering from the University of Madras. His contributions have been recognized through awards and research grants.
