CAMPUS RECREATION

Turf Field Policies

All organized group events or activities must be scheduled through Campus Recreation Services

Rules:

No food or drinks allowed (water is permitted)

No gum, sunflower seeds, or shelled nuts allowed in facility

No use of alcohol or tobacco products allowed (including e-cigs/vape)

No glass of any kind permitted

No metal cleats are to be worn

No pets allowed other than service animals

No spitting on the turf

Any sharp objects that could penetrate the turf are prohibited

No firearms, weapons, or any illegal items allowed in facility

User's Responsibilities:

CLEANLINESS: because the turf is not regenerated like natural grass, anything left on the turf remains there, posing health and safety hazards as well as general degradation of the turf.

You are responsible to leave the field clean and ready for the next user. Remove all trash, equipment, and other hazardous materials from the turf when you are finished with your activity.

In the event of an accident or injury resulting in bodily fluids onto turf: STOP ALL ACTIVITY, CONTACT THE CAMPUS RECREATION OFFICE OR FIELD SUPERVISOR FOR PROPER CLEAN-UP. You may resume play once the hazardous area is cleaned up

Protect the turf surface from sharp or pointed edges of objects or equipment placed on the field. When goals or other equipment are moved, they should be picked up off the turf. Dragging goals, such as lacrosse goals and soccer goals, will damage the turf.

Motorized vehicles are not permitted on the turf (except approved maintenance vehicles)

Spray painting or chalking the turf is prohibited

Vandalism to property, equipment, or the fields will not be tolerated. These actions will lead to Police and/or University action and loss of privileges

Inclement Weather:

While using the Turf Field remain aware and alert for incoming weather. It is a large open area and subject to lightning and other weather-related hazards.

Please be diligent about the signs of imminent lightning. All activity should stop during any lightning activity. Normal activity should not be resumed until 30 minutes after the last thunderclap is heard.

Limit activity on the Turf Field when snow and ice are present.

If weather threatens the safety of the field users, consider seeking shelter until it passes or discontinue use of the Turf Field.
