

COURSE DESCRIPTION

Day One— This lecture will review dentistry for the older adult which includes diagnosis, treatment planning and delivery, clinical treatment issues and medical problems. Also included will be patient intake and potential emergencies in the dental office for the older medically compromised adult with a short hands-on portion. Day 2- will be additional lecture topics on dentistry for the older adult and a hands-on to include prevention and restorative procedures and materials for providing dentistry for this population.

ABOUT THE SPEAKER

Dr. Larry N. Williams

From 1978 to 1982, Dr. Williams attended the University of Tennessee College of Dental Medicine. From 1982 to 2012, Dr. Williams spent 30 years in the U.S. Navy where he provided dental care worldwide as a member of the Navy Dental Corps. During this time, he completed two residency programs and served in many positions such as the AEGD Dental Director, Public Health Emergency Officer for FEMA Region 5, as well as various faculty positions at both medical and dental schools. He also taught a substance abuse and addiction curriculum for the Navy and other national and local programs. In 2012, Dr. Williams joined the faculty at Midwestern University College of Dental Medicine-Illinois, where he was recently promoted as Professor. Dr. Williams teaches preclinical education for year one and two dental students. He continues to provide continuing education which includes geriatric dentistry, poly pharmacy, office emergencies, pain control, anesthesia and tobacco/vaping/cannabis. His research includes areas of public health which include anxiety, depression, disability and aging with a focus on the impact that these topics have on the practice of dentistry. Dr. Williams has a Masters Degree in Public Health, an AGD Mastership award and is boarded in the American Board of General Dentistry. He is a member of the ADA, AGD, SRNT, APHA, AGD and the AAPHD. He has been awarded fellowship in the ACD, PFA, ICD and ADI.

Dental Treatment for the Older Adult and In-Office Emergencies That Can Occur with the Medically – Compromised Older Adult

Course Objectives:

Develop knowledge of treatment concerns which impact oral healthcare treatment planning for the older adult patient.
Better understand evidence-based oral health options for the older adult, especially those who are medically compromised.
Discuss various treatment options for different problems facing geriatric patients.
Utilize procedures and materials which can be of benefit in the treatment of the older adult dental patient.

Supplies: For the hands-on session please bring magnification eyewear; Highspeed handpiece to connect with 4-hole adaptor hose; Low speed with latch attachment. Also, hand instruments: large and small spoon excavators, plastic instruments and other favorite composite instruments as well as #6 and # 8 latch attachment slow speed burs. Carious extracted teeth.
