

COURSE DESCRIPTION

Day One—This lecture will review the most common categories of soft tissue lesions that are regularly encountered in the head and neck region. It will also review basic categories of soft tissue lesions and emphasize the importance of developing a reasonable differential diagnosis. The lecture will review the etiologic factors associated with both oral and oropharyngeal cancer. Day 2- will be a hands-on endodontic laboratory exercise on endodontic diagnosis, treatment, instrumentation and obturation.
