Teachers Prepared

On this page, enter the number of program completers by the subject area in which they were prepared to teach, and by their academic majors. Note that an individual can be counted in more than one academic major and subject area. For example, if an individual is prepared to teach Elementary Education and Mathematics, that individual should be counted in both subject areas. If no individuals were prepared in a particular academic major or subject area, you may leave the cell blank. Please use the "Other" category sparingly, if there is no similar subject area or academic major listed. In these cases, you should use the text box to describe the subject area(s) and/or the academic major(s) counted in the "Other" category.

If your IHE offers both traditional and alternative programs, be sure to enter the program completers in the appropriate reports. For the traditional report, provide only the program completers in traditional programs within the IHE. For the alternative report, provide only the program completers for the alternative programs within the IHE.

After entering the teachers prepared data, save the page using the floating save box at the bottom of the page.

- >> [Teachers Prepared by Academic Major](#)

Teachers Prepared by Subject Area

Please provide the number of teachers prepared by subject area for academic year 2024-25.

For the purposes of this section, number prepared means the number of program completers. "Subject area" refers to the subject area(s) an individual has been prepared to teach. An individual can be counted in more than one subject area. If no individuals were prepared in a particular subject area, please leave that cell blank. ([§205\(b\)\(1\)\(H\)](#))

What are CIP Codes?

No teachers prepared in academic year 2024-25

If your program has no teachers prepared, check the box above and leave the table below blank (or [clear responses already entered](#)).

What are CIP codes? The Classification of Instructional Programs (CIP) provides a taxonomic scheme that supports the accurate tracking and reporting of fields of study and program completions activity. CIP was originally developed by the U.S. Department of Education's National Center for Education Statistics (NCES) in 1980, with revisions occurring in 1985, 1990, and 2000 (<https://nces.ed.gov/ipeds/cipcode/Default.aspx?y=55>).

Teachers Prepared by Academic Major

Please provide the number of teachers prepared by academic major for academic year 2024-25. For the purposes of this section, number prepared means the number of program completers. "Academic major" refers to the actual major(s) declared by the program completer. An individual can be counted in more than one academic major. If no individuals were prepared in a particular academic major, please leave that cell blank. ([§205\(b\)\(1\)\(H\)](#))

Please note that the list of majors includes several "Teacher Education" majors, as well as several noneducation majors. Please use care in entering your majors to ensure education-specific majors and non-education majors are counted correctly. For example, if an individual majored in Chemistry, that individual should be counted in the "Chemistry" academic major category rather than the "Teacher Education–Chemistry" category.

Program Assurances

THIS PAGE INCLUDES:

>> [Program Assurances](#)

Respond to the following assurances. Teacher preparation programs should be prepared to provide documentation and evidence, when requested, to support the following assurances. ([§205\(a\)\(1\)\(A\)\(iii\)](#); [§206\(b\)](#))

Program Assurances

Note: This section is preloaded from the prior year's IPRC.

1. Program preparation responds to the identified needs of the local educational agencies or States where the program completers are likely to teach, based on past hiring and recruitment trends.

- Yes
 No

2. Preparation is closely linked with the needs of schools and the instructional decisions new teachers face in the classroom.

- Yes
 No

3. Prospective special education teachers are prepared in core academic subjects and to instruct in core academic subjects.

- Yes
 No
 Program does not prepare special education teachers

4. Prospective general education teachers are prepared to provide instruction to students with disabilities.

- Yes
 No

5. Prospective general education teachers are prepared to provide instruction to limited English proficient students.

- Yes
 No

6. Prospective general education teachers are prepared to provide instruction to students from low-income families.

- Yes
 No

7. Prospective teachers are prepared to effectively teach in urban and rural schools, as applicable.

- Yes
 No

8. Describe your institution's most successful strategies in meeting the assurances listed above:

SIUE's teacher candidates are prepared to meet the challenges of teaching all learners. Their coursework lays the foundation for understanding the diversity of students, the content being taught, effective planning and instructional strategies, assessment practices, creation of a safe and productive environment, and instructional decision-making. This foundational knowledge is enacted in field experience placements which are in a variety of diverse settings and in a range of grade levels. Faculty work closely with school partners to ensure that candidates have meaningful, reflective experiences within their school placements. Candidates not only observe, plan and teach, they also work collaboratively with students, peers, parents and school faculty and administration. These components of SIUE's teacher education programs prepare candidates to effectively teach in any classroom to which they are assigned. General education candidates are required to successfully complete coursework addressing instructional strategies that maximize

student learning within the context of their social, economic, cultural, linguistic and academic experiences, as well as the teaching of students with exceptionalities. Both general and special education candidates are required to take a wide range of general education coursework in the arts, sciences, and humanities in addition to content and reading methods courses within their programs. Methods courses focus on differentiated instruction as a means of meeting the needs of P-12 students. Candidates, under the direction of their cooperating teachers and university supervisors, are applying what they have learned about effective teaching to meet instructional needs by assessing students, analyzing the learning, and making instructional decisions based on data. This joint effort is preparing candidates to also meet the needs of local districts.

Annual Goals: Mathematics

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route teacher preparation program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students.

Report Progress on Last Year's Goal (2024-25)

1. Did your program prepare teachers in mathematics in 2024-25?

If no, leave remaining questions for 2024-25 blank (or [clear responses already entered](#)).

- Yes
 No

2. Describe your goal.

Prepare three math teachers for 2024-2025.

3. Did your program meet the goal?

- Yes
 No

4. Description of strategies used to achieve goal, if applicable:

5. Description of steps to improve performance in meeting goal or lessons learned in meeting goal, if applicable:

Students were supported by a content mentor, an education advisor, and a College of Arts and Sciences advisor to monitor their academic progress and discuss career goals and expectations. Meetings took place with these advisors and mentor and the students each semester during their program. The early experiences during their junior year enabled the students to determine that they were very interested in teaching high school math and they continued to successful program completion. We believe the early experiences are a positive part of the program, but it does sometimes lead to students changing their mind on their intended career path. ?

6. Provide any additional comments, exceptions and explanations below:

Provide any additional comments, exceptions and explanations below: Students are able to declare a content major with teacher licensure upon entry into the institution or very early in their college career, helping them to get correct advisement for completing the content degree program and secondary teacher licensure coursework. Faculty monitor state licensure tests, tracking subscore trends of teacher candidates, to identify potential weak areas.? This data is then used to improve coursework and appropriately advise teacher candidates.? The current sequence of professional education coursework has students having a field experience during each of their four final semesters (fall and spring of both junior and senior year). The first group of students through this two year sequence of coursework graduated in May 2023. We are hopeful that moving forward this sequence of field experiences coordinated with professional education coursework as well as the increasing need for qualified math teachers will help our program grow.

Review Current Year's Goal (2025-26)

7. Is your program preparing teachers in mathematics in 2025-26? If no, leave the next question blank.

Report Progress on Last Year's Goal (2024-25)

1. Did your program prepare teachers in special education in 2024-25?

If no, leave remaining questions for 2024-25 blank (or [clear responses already entered](#)).

- Yes
 No

2. Describe your goal.

Maintain students of color at 10% (at least 3 of approximately 30 students who will enroll in the UG and MAT programs).

3. Did your program meet the goal?

- Yes
 No

4. Description of strategies used to achieve goal, if applicable:

Outreach to priority partners and partnership with Golden Apple Accelerator program helped to reach this goal.

5. Description of steps to improve performance in meeting goal or lessons learned in meeting goal, if applicable:

We would like to continue with priority partners and Golden Apple to ensure that opportunities to be a part of our program are successful. Golden Apple in particular allows students from various regions within the state to become students in our program. We are exploring ways to utilize donations/foundation funds earmarked for Special Education student preparation to support program applicants with tuition, fees and program costs.

Assessment Pass Rates

THIS PAGE INCLUDES:

>> [Assessment Pass Rates](#)

The pass rates table is populated from files provided by the testing company or state. The table provides information on the performance of the students in your teacher preparation program on each teacher credential assessment used by your state. In cases where a student has taken a given assessment more than once, the highest score on that test is used. In the case of a teacher preparation program with fewer than 10 scores reported on any single initial teacher credential assessment during an academic year, the program shall collect and publish information with respect to an average pass rate and scaled score on each state credential assessment taken over a three-year period. ([§205\(a\)\(1\)\(B\)](#))

Please note that this page does not have an edit feature as the pass rates have already been through several rounds of verification. If you identify an error, please contact RTI's Title II Support Center and your testing company representative.

Provide the following information about the approval or accreditation of your teacher preparation program. ([§205\(a\)\(1\)\(D\)](#), [§205\(a\)\(1\)\(E\)](#))

Note: This section is preloaded from the prior year's IPRC.

Low-Performing

1. Is your teacher preparation program currently approved or accredited?

- Yes
- No

If yes, please specify the organization(s) that approved or accredited your program:

- State
- CAEP
- AAQEP
- Other specify:

2. Is your teacher preparation program currently under a designation as "low-performing" by the state?

- Yes
- No

On this page, review the questions regarding your program's use of technology, and update as needed.

Note: This section is preloaded from the prior year's IPRC.

Use of Technology

1. Provide the following information about the use of technology in your teacher preparation program. Please note that choosing 'yes' indicates that your teacher preparation program would be able to provide evidence upon request. ([§205\(a\)\(1\)\(F\)](#))

Does your program prepare teachers to:

- a. integrate technology effectively into curricula and instruction

Yes

No

- b. use technology effectively to collect data to improve teaching and learning

Yes

No

- c. use technology effectively to manage data to improve teaching and learning

Yes

No

- d. use technology effectively to analyze data to improve teaching and learning

Yes

No

2. Provide a description of the evidence that your program uses to show that it prepares teachers to integrate technology effectively into curricula and instruction, and to use technology effectively to collect, manage, and analyze data in order to improve teaching and learning for the purpose of increasing student academic achievement. Include a description of the evidence your program uses to show that it prepares teachers to use the principles of universal design for learning, as applicable. Include planning activities and a timeline if any of the four elements listed above are not currently in place.

Technology is infused in general education and teacher education coursework. Teacher candidates extensively use computers, tablets, and videotaping equipment in their coursework and field placements. There is a marked increase in video analysis of teaching assignments in teacher preparation coursework. Additionally, candidates use assessment and content learning online software while in their school placements. Candidates in all initial teacher preparation programs complete an initial course developed to concentrate on technology applications for the educational setting. The skills developed in this course are reinforced throughout the curriculum, specifically in methods, learning environment, and assessment courses

Teacher Training

THIS PAGE INCLUDES:

>> [Teacher Training](#)

Provide the following information about your teacher preparation program.

(§205(a)(1)(G))

Note: This section is preloaded from the prior year's IPRC.

Teacher Training

1. Provide a description of the activities that prepare general education teachers to:

a. Teach students with disabilities effectively

All education candidates are required to take SPE 400, The Exceptional Child. In this course, general education candidates learn how to work with students with disabilities or LEP and their families through a variety of class activities, assigned readings, lectures, use of assistive technology, and assignments.

b. Participate as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities Education Act*.

Candidates learn the legal requirements of IDEA which includes how to participate as a member of and IEP team, evidenced-based interventions and effective collaboration and professional practices.

c. Effectively teach students who are limited English proficient.

All education programs provide instruction in strategies for teaching students who are limited English proficient and candidates are given the opportunity during clinical field experiences to implement this knowledge in classroom settings. Candidates are also placed in clinical experiences that require they participate as part of team of educators working with students who have limited English proficiency.

2. Does your program prepare special education teachers?

- Yes
 No

If yes, provide a description of the activities that prepare *special education teachers* to:

a. Teach students with disabilities effectively

The special education program provides extensive experiences needed to prepare teacher candidates to teach K-12 students with disabilities. Candidates study the IEP process, IDEA legal guidelines, collaboration skills, assessment processes, intervention strategies, progress monitoring, functional behavior assessment, classroom management, functional curriculum, assistive technology, transitional planning, curriculum adaptations and methods of teaching reading and mathematics to students with disabilities.

b. Participate as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities Education Act*.

Two to Four field placements spanning the full range of ages and disabilities are also part of the curriculum. During these placements, candidates

enact assignments associated with concurrent program coursework. One example is the behavioral change project wherein a candidate selects a target student, builds a relationship with the student's family, assesses the student's academic and behavioral performance, identifies appropriate goals, and objectives, selects and implements evidence-based instructional and behavioral interventions, conducts ongoing progress monitoring, and reflects upon the experience.

c. Effectively teach students who are limited English proficient.

Special education and general education candidates are required to take a literacy course which includes methods which help them work with limited English proficient students. Additionally, candidates take a course solely devoted to language acquisition and development. This course focuses on collaboration with families, including families from different cultural backgrounds.
