

Graduate Exercise Physiology Exit Exam Dates for Non-Thesis Students 2014-2015

In the final semester prior to graduation, all non-thesis students specializing in Exercise Physiology will be required to take a comprehensive exit exam, covering information from the entire program. Students may not substitute the completion of a previous certificate (e.g., CSCS, CES, etc.) for the exit exam. The exit exam follows the same format as the American College of Sports Medicine's Clinical Exercise Specialist certification exam.

To prepare for the exit exam, we recommend using ACSM's Exercise Testing and Prescription 9th Ed and ACSM's Resource Manual for Guidelines for Exercise Testing and Prescription 7th Ed. All students will be responsible for furnishing their own calculator for the exam and #2 pencils. All needed equations will be provided during the exam. The dates for the exit exam are listed below. For more information or to schedule your exit exam please contact the Exercise Physiology Graduate Program Coordinator, Dr. Joshua Wooten at jwooten@siue.edu at least 4 weeks prior to the exam date.

Fall 2014 Exam Dates

Exam 11/7/2014 9:00am-12:00pm, Location TBD

Retake Exam 11/21/2014 9:00am-12:00pm, Location TBD

Spring 2015 Exam Dates

Exam 4/10/2015 9:00am-12:00pm, Location TBD

Retake Exam 4/24/2014 9:00am-12:00pm, Location TBD

Summer 2015 Exam Dates

Exam 7/10/2015 9:00am-12:00pm, Location TBD

Retake Exam 7/24/2015 9:00am-12:00pm, Location TBD

Please note that students selecting the thesis option must successfully complete and defend their thesis. The thesis option is intended only for those students moving on to a doctoral degree program. Please contact Dr. Joshua Wooten at jwooten@siue.edu for more information.
