Academic Year 2024

Prepared by The Office of Institutional Research and Studies
Spring 2025

Study Methods

The Graduation and Retention Rates by Program reports present program success rates for the last ten academic years. The study includes undergraduate students who first declared their major in the academic year specified. Students of any class level, including those working toward a second baccalaureate degree, are included. The program success rate is calculated as the number of students who graduated in the program plus the number of students who remain enrolled (retained) in the program.

Students were assigned into program cohorts based on the academic year in which they initially declared and enrolled in their major. They were then tracked within their program through subsequent academic years to determine the program success rate (graduation plus retention rates) at year 2, year 4 and year 6. Within each program cohort, students were further categorized into first-year or transfer groups based on their original admission into the University.

Graduation rates displayed are cumulative, meaning the rate for Year 6 includes students counted for Year 4 and Year 2 rates. The reports also include the SIUE Graduation rate at Year 6. This rate includes both students in the program graduation rate and students who changed majors and were awarded an SIUE undergraduate degree in a different program. Retention rates are based on retention in the year displayed only, and students included in the graduation rate are not included in the retention rate. Programming changes or code corrections in the Banner student information system may result in small headcount differences from previous studies.

These reports rely on a custom data set developed with the assistance of SIUE's department of Information Technology Services. The credit hours required to graduate for each program were obtained from the Undergraduate catalog.

NOTES:

Cohorts are based on the academic year in which students declare their major, and can include students of any class level.

Completion years are through Spring of the academic year indicated, for instance students in cohort year 2021-22 are followed through Spring 2023 to determine the Year 2 graduation rate.

Students are considered retained if they were enrolled in any one of the Summer, Fall, or Spring terms in the year displayed, and are not included in the graduation rate for that year.

Credit hours include ALL earned hours: SIUE earned hours and accepted transfer credit hours.

Credit hours required to graduate in program: **120**

NOTES:

Cohorts are based on the academic year in which students declare their major, and can include students of any class level.

Completion years are through Spring of the academic year indicated, for instance students in cohort year 2021-22 are followed through Spring 2023 to determine the Year 2 graduation rate.

Students are considered retained if they were enrolled in any one of the Summer, Fall, or Spring terms in the year displayed, and are not included in the graduation rate for that year.

Credit hours include ALL earned hours: SIUE earned hours and accepted transfer credit hours.

Credit hours required to graduate in program: **123**

NOTES:

Cohorts are based on the academic year in which students declare their major, and can include students of any class level.

Completion years are through Spring of the academic year indicated, for instance students in cohort year 2021-22 are followed through Spring 2023 to determine the Year 2 graduation rate.

Students are considered retained if they were enrolled in any one of the Summer, Fall, or Spring terms in the year displayed, and are not included in the graduation rate for that year.

Credit hours include ALL earned hours: SIUE earned hours and accepted transfer credit hours.
