Q&A from Teaching & Learning Continuity Discussions Panel – Engagement 4/8/2020

Your webinar functions of chat/raise hand/ Q & A is not seen when I hold online classes. I have the Chat function only. How can I access these tools?

- This is only available in the Webinar. Unfortunately we have only one license for Webinar.
- Webinar is different than a standard Zoom session.
- This article from Zoom shows (toward the bottom of the article) the "Non-Verbal" feedback students can give.

Ok thanks! Any suggestions on accessing at least the raise hand function?

- There are things such as Yes, No; go slower, go faster, thumbs up; wave hand located in the Participant panel.

Comment: Zoom breakout rooms - You can upload a list (CSV file) ahead of time and pre-create groups into breakout rooms.
