NURS 480R ¹ Nursing Leadership in Health Care Systems	4
Total Hours	8

***Bachelor of Science Degree Total* 121**

¹SIUE School of Nursing Online Course.

²Courses must be completed prior to NURS 375R.

³Credit hours not included in JALC total hours.

⁴Elective hours must be transferrable. To receive 43 nursing proficiency credits, students should not complete EDC 202 as the elective, nor should the student complete a Lifespan Growth & Development course from a separate institution.

*Students must complete 50% or more of SIUE degree requirements at SIUE (120 hours are required for graduation).

Once a student entering the RN/BS program provides evidence of a current unencumbered RN license, the School of Nursing will complete an overall assessment of the student's work experience and the previously completed community college and university nursing coursework. The School of Nursing may then grant up to 40 or 43 proficiency credits to provide the student with advanced standing in the nursing program. These credits differ from the transfer of courses. If the student's college/university nursing credits are greater than 5 years old, the candidate will need to submit a portfolio to demonstrate proficiency in the areas in which credit is sought along with evidence of a current unencumbered RN license.
