Completion of Bachelor of Science degree 125

*A course that satisfies both the ERGU and EREG requirement will only be counted as one and not both.

Although a minor is not required for students who major in Basic Chemistry, it is strongly recommended that students consider one. Courses taken at SWIC to meet SWIC's general education requirements can be used for the minor. Students should begin planning early.

Transfer students should have a 2.6 GPA in science and mathematics courses, and a 2.5 average in courses taken at other colleges and universities.

Students who do not meet the GPA requirements may be provisionally accepted and will receive advisement.

*Students must complete 50% or more of degree requirements at SIUE.
