1 Funded, 0 Unfunded URCA Assistant(s)

Are you willing to work with students from outside of your discipline? If yes, which other disciplines?

- Yes

How many hours per week will your student(s) be required to work in this position?
(Minimum is 6 hours per week; typical is 9)

- Hours would be from 6 to 8 hours per week

Will it be possible for your student(s) to earn course credit?

- No

Location of research/creative activities:

- Health Science Building

Brief description of the nature of the research/creative activity?

- Research areas would include nursing education and medication adherence.

Brief description of student responsibilities?

- Students would assist with literature reviews, summarizing evidence, research project planning, data collection, data analysis and dissemination.

URCA Assistant positions are designed to provide students with *research or creative activities* experience. As such, there should be measurable, appropriate outcome goals. What exactly should your student(s) have learned by the end of this experience?

1. Conduct literature reviews to identify and summarize current evidence relevant to a research project.
2. Assist in the planning and implementation of research activities, including data collection and basic data management processes.
3. Collaborate in dissemination of findings through preparation of summaries or presentations.

Requirements of Students

If the position(s) require students to be available at certain times each week (as opposed to them being able to set their own hours) please indicate all required days and times:

- Schedules will be determined collaboratively between URCA student and mentor

If the location of the research/creative activities involves off campus work, must students provide their own transportation?

- Location would include on campus

Must students have taken any prerequisite classes? Please list classes and preferred grades:

- Stat 107

Other requirements or notes to applicants:

- Nursing major
