	This project deals with sustainability (green) issues.	
✓	This project deals with human health and wellness issues.	
	This project deals with community outreach.	
✓	This mentor's project is interdisciplinary in nature.	I

Are you willing to work with students from outside of your discipline? If yes, which other disciplines?

Yes

How many hours per week will your student(s) be required to work in this position?
(Minimum is 6 hours per week; typical is 9)

6-9

Will it be possible for your student(s) to earn course credit?

No

Location of research/creative activities:

Brief description of the nature of the research/creative activity?

This research is an experiential learning project. Senior nutrition students participate in a week long 'living with diabetes' learning experience. We have gathered learning outcome data on 5 cohorts and will gather data on one more cohort this spring. Beyond that, we are analyzing the outcome data and writing a paper for publication. There is no known data (at this time)on this type of learning experience in nutrition students.

Brief description of student responsibilities?

URCA students will help with organizing the project this spring as well as analyze the data gathered and writing the manuscript.

URCA Assistant positions are designed to provide students with *research or creative activities* experience. As such, there should be measurable, appropriate outcome goals. What exactly should your student(s) have learned by the end of this experience?

Yes

Requirements of Students

If the position(s) require students to be available at certain times each week (as opposed to them being able to set their own hours) please indicate all required days and times:

If the location of the research/creative activities involves off campus work, must students provide their own transportation?

Must students have taken any prerequisite classes? Please list classes and preferred grades:

Other requirements or notes to applicants:
